

Gajjar Engineering & Fabrication Works

<https://www.indiamart.com/gajjar-engineering/>

Gajjar Engineering & Fabrication Works is among the most distinguished organizations engaged in of **Heater Cooler Mixer** and **Pulverizer Machine**.

About Us

Established in year **1997**, we, "**Gajjar Engineering & Fabrication Works**", are among the most distinguished organizations engaged in manufacturing of **Industrial Machine** and **Industrial Mixer**. The range offered by us consists of **Heater Cooler Mixer, Pulverizer Machine, PVC Plastic Mixing Machine, Plastic Scrap Grinding Machines** and many more. These machines are manufactured in accordance with industry standards by using optimum quality material and employing advanced machines. Offered machines are supervised at the manufacturing stages, so as to maintain higher standards of quality and eliminate flaws, if any. Along with this, a team of experts rigorously examine these products on different parameters and then forward for the final delivery to the customers. Our customers applaud these machines for their excellent performance, longer life span, accurate dimensions, corrosion resistance and low maintenance.

Being a customer oriented organization, we are committed towards gaining the faith of the customers. In order to so so, we ensure that superior quality products are offered to the customers and at market leading prices. Along with this, to meet the specific requirements of the customers, our customers stay in touch with the clients to know their needs and offer them products accordingly. With this, we also make sure that all our products are delivered to the patrons within the given time period...
